# Zero Ranger

Zero Ranger is a shmup from 2018 that I recently found and have been having fun with. It runs on stock wine out of the box and is playable, however there are some tweaks that improve the quality of the experience. However NVIDIA machines will have difficulty with dxvk/proton setups.

| | |
|---|---|
| **Playability** | Platinum |
| **Tweak Effort** | Minimal |
| **Storefronts** | itch.io |

## Necessary Tweaks

- winecfg: force window aspect ratio
- syspkg: install lib32 pulse/pipewire packages

## Tested Machines

Host: Artix Linux Rolling

| HW Class | Description |
|---|---|
| processor | Intel(R) Core(TM) i7-10750H CPU @ 2.60GHz |
| memory | 16GiB System Memory |
| display | TU116M [GeForce GTX 1660 Ti Mobile] |
