

# Zero Ranger

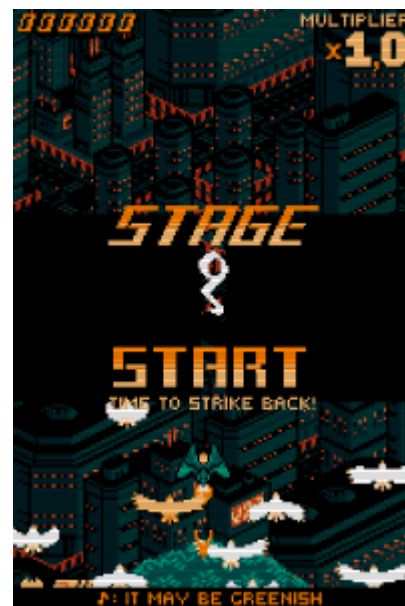

Zero Ranger is a shmup from 2017 that I recently found and have been having fun with. It runs on stock wine out of the box and is playable, however there are some tweaks that improve the quality of the experience.

NVIDIA-based machines may have difficulty with running this. Ive experienced issues with both stock and dxvk. However, dxvk has had more consistency in working compared to stock.

<b>Playability</b>	Platinum
<b>Tweak Effort</b>	Minimal
<b>Storefronts</b>	<a href="https://itch.io">itch.io</a>

## Necessary Tweaks

- winecfg: force window/desktop aspect ratio
- syspkg: install lib32 pulse/pipewire packages

## Tested Machines

- Host: Artix Linux Rolling
- D3D Implementation: dxvk
- Status: Works

HW Class	Description
processor	Intel(R) Core(TM) i7-10750H CPU @ 2.60GHz
memory	16GiB System Memory
GPU	GeForce GTX 1660 Ti
GPU Driver Version	580.105.08-3
