

# QuickRef

References to various tool/language common actions, tips, or anything fairly useful.

## Tools/Programs

- [Git](#)
- [PostgreSQL](#)

## Misc

Extract pages N from pdf and save to new pdf. <range> is a comma-separated list of either single pages or page ranges.

```
qpdf --empty --pages report.pdf <range> -- print.pdf
```

Bind remote-localhost service on specific port to local-localhost specific port

```
ssh -L [localport]:[localhost]:[remoteport] remoteuser@remoteaddress
```
